

Creative People Start a Decorative Concrete Business

“Bringing Design & Beauty to Concrete Floors Around the World”

CT International is the Distributor for the Concrete Technology Inc. (CTi) products within the MENA Region.

CTi is the manufacturer of one of the fastest growing products in the home, commercial and city improvement industry today. CTi has been listed in INC Magazine’s prestigious INC 500 list of America’s fastest growing, privately held companies. In addition, CTi has been listed in Deloitte and Touche’s Technology 500 as one of the top new technology companies in America today.

CTi has installed over 200 million square feet of its easy to use spray system for thousands of satisfied home and commercial business owners throughout the USA and in 22 countries.

CTi is headquartered in the beautiful Tampa Bay area of Florida.

Its international headquarters and training facility is where Dealers from around the globe have started their new businesses with CTi.

The CTi business model is one that virtually insures the success of a small start-up business.

And, by staying true to our initial vision of unbridled quality, indepth training and 24/7 support, we have assisted literally hundreds of small business owners in realizing their dreams.

- CTi provides one of the most beautiful, versatile, and fastest growing products on the market today.
- Founded in 1991 in Florida, CTi has seen over 900% growth since opening.
- CTi has more than 250 Dealership network located throughout the United States as well as in 22 foreign countries.
- CTi’s success has come from educating high quality business people on the intricacies of starting a small business in the multi-billion dollar industry of concrete restoration and beautification. CTi then supports these Dealers with 24 hour a day technical support, a proven marketing plan, and ongoing training.

Unsightly Concrete Floors & Walls? CTi Has the Answer!

- The CTI System is Freeze/Thaw Resistant, the normal movement of concrete is what normally causes it to look bad over time.
- The CTI System is more flexible and able to withstand this concrete movement without cracking.
- The CTI System keeps its rich beauty for years and provide 10 years guarantee to its customers. Who else does?
- The CTI System is twice the strength of normal concrete. Therefore, the vehicle traffic and daily wear & tear will not effect the CTI System. This tough, durable coating stands up year after year.
- The CTI System is easier to maintain than concrete. Whether it's mold and mildew that can turn concrete dark and dingy, or motor oil that will permanently stain normal concrete, the CTI System is a non-porous system that keeps stains and chemicals at the surface. This means that most of the time, a hose and a little detergent is all that is needed to keep your CTI System looking brand new.
- The CTI System is heat resistant. Because it can be applied in a limitless number of colors and textures, the CTI System remains cool and comfortable even in the hotter climates countries.
- The CTI System is skid resistant. CTI is a textured coating that can be applied as smooth or as rough as you want. If you need a surface that will insure solid footing or if you want something smoother for indoors or around your pool, CTI provide the proper texture to fit your needs for Home, Commercial, Industrial, City Landscape.
- Salt and Chemical resistant. Salt is one of concrete's main enemies and each year it causes pitting and scaling in countless square feet of concrete. The CTi System stands up to the salts and de-icing agents and will not pit like normal concrete.
- The CTI System comes in a limitless number of designs and textures to fit any look of any home or office. If you want the chic look of marble, the durable look of granite or a custom look of tile, CTI has the look and answer for you.
- CTI offers a wide array of both residential and commercial coatings. Your home, office, or warehouse will look better and last longer with CTI on top.
